

Validation Report – Lab 05 Race Condition

Content Validation

Check	Status	Notes
Target path correct	PASS	labs/05-race-condition
Series number correct	PASS	#05
No stale lab data	PASS	All facts match current source
Technical claims have evidence	PASS	All claims mapped to source files
No fabricated numbers	PASS	All counts from test assertions or documented results
Invariant descriptions accurate	PASS	`initial == success + final`, `COUNT(bookings) <= 1`
Solution explanations correct	PASS	Atomic update, row lock, unique constraint described per implementation

Format Validation

Check	Status	Notes
LinkedIn carousel 24 pages	PASS	Pages 01-24 with distinct content
LinkedIn caption present	PASS	linkedin-caption.md created
Dev.to YAML front matter	PASS	Valid YAML, 4 tags
Medium markdown valid	PASS	Valid Bahasa Indonesia, proper headings
Metadata matches files	PASS	Title, tags, slug consistent

Language Validation

Check	Status	Notes
LinkedIn carousel Bahasa Indonesia	PASS	All 24 pages in Indonesian
Dev.to English	PASS	Full article in English
Medium Bahasa Indonesia	PASS	Full article in Indonesian

Evidence Alignment

Platform	Consistent with source	Notes
LinkedIn	Source-pass	Carousel pages distilled from README and tests
Dev.to	Source-pass	Code snippets from source files
Medium	Source-pass	Same facts, different paragraph structure

Unresolved Issues

None. All deliverables pass validation against source audit.
